*** We are requested to return due acknowledgements to those correspondents who have so obligingly noticed the intended History of Reading. The papers of the late Mr. Alderman Watts already form a part of the materials collected for that History.—T. T. S. asks the Christian name of, and when and at what age died, the father of Sir John Blunt, Bart. so created by George I.—A. Z. asks, Why are goats kept among horses, and geese among cattle in rich feeding pastures?
